# TRIVIUM

The Trivium is a systematic method of critical thinking for deriving certainty from any information coming into the mind via the five senses. In [medieval universities](#), the **trivium** comprised the three subjects that were taught first, specifically in this order: [grammar](#), [logic](#) and [rhetoric](#). If the three steps are arranged any other way The Trivium will not work as a method for deriving certainty. The word is a [Latin](#) term meaning "the three ways" or "the three roads" which lead to Truth. This forms the foundation of a [medieval liberal arts](#) education.
